Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

My name is Zeroun Skinner; I am a recent graduate of Timber Creek High School. After graduation, I have chosen to attend Florida Atlantic University. At FAU, I will work toward obtaining my bachelor's degree in accounting and playing collegiate football. While at FAU, I plan to continue to work hard to maintain a high grade point average. Daily, I will be training to prepare for the fall football season. Currently, I am working on obtaining an internship during the summer and spring semester. For the past two years, I have been a member of the PIT Crew at Timber Creek, which is a Peer Inclusion Team program that has allowed me to work with and learn from special needs students. This program has been extremely rewarding and I would like to continue my service with a similar organization at FAU. If my schedule permits, I will continue to volunteer in the local community of Boca Raton, Florida and other nearby cities. I will continue to volunteer with various organizations while social distancing.

There are three major professional goals that I hope to accomplish after completing my undergraduate college education. My first goal is to complete the courses of the accounting program at FAU in order to obtain my Bachelor's degree, which will be completed in 4 years. My second goal after obtaining my bachelor's degree is to secure an accounting position with a reputable Fortune 500 financial institution. This is extremely important because this is where I hope to have the opportunity to enhance my knowledge, skills and abilities in accounting. While working, I plan to pursue acquiring my master's degree in accounting from Rollins College. This will help boost my opportunity of obtaining a higher-level position in banking, taxation, insurance or any company with a financial division. After about 7-10 years of successful experience, my final professional goal is to open an accounting firm in Florida. This will be after I have proven to be successful and gained additional skills in the profession. After years of success and stability, I would like to add an additional component to the firm, an outreach program that will work with local schools and non-profit organizations. The main objective of the program will be to introduce and educate young children and students about finances. My ultimate goal is to open my own accounting firm and building a strong relationship with community organizations. These are my plans to move forward with greatness.
